

## **REIT Buyer to Discuss Real Estate Mutual Funds in Boise, Idaho**

**A Real Estate Mutual Fund is a collection of real estate companies, Real Estate Investment Trusts (REITs) and companies who service the real estate market, where an investor purchases shares which represent a portion of the total worth of the fund**

Boise, ID -- A group of real estate investors recently held a meeting where they invited Earl E. Bird, spokesperson for the REIT Buyer.com, a newly launched website for real estate investors to learn all about REITs and how to invest in them. Earl explained REITs and how they are a great investment today. Earl had the attention of worn out landlords who were impressed with the alternative way to invest in real estate without the headaches of property management.

Using charts and graphs Earl explained the benefits of investing in Real Estate Mutual Funds. "Just as a traditional mutual fund, the primary benefits of investing in Real Estate Mutual Funds are professional management and diversification," Bird explained. "You do not have to attempt to determine the best way to invest your money because a Real Estate Mutual Fund is managed by an investment professional that assists you in making sure your investment is profitable."

Earl continued speaking, "A Real Estate Mutual Fund offers you the opportunity to diversify because each fund owns several different real estate companies and companies who service the real estate market and REITs. When you purchase shares of the fund, you are buying pieces of all the assets held by the fund."

The group listened as Earl explained the different types and investment levels of Real Estate Mutual Funds. "Real Estate Mutual Funds are divided into two categories: closed-ended, which are funds with a limited number of shares and open-ended, which are funds with an unlimited number of shares. There are many more open-ended funds than there are closed-ended funds," Earl explained.

Everyone was pleased with all the information Earl gave them. Read articles about REITs on Earl's blog <http://apartmentsby.blogspot.com>

REITbuyer.com is an online brokerage information site specializing In REITs and Real Estate Mutual Funds – The World's first and only site dedicated to REITs Real Estate Mutual Funds. This is a place for the small investor to own a piece of world class real estate.
